| **MAD2**	Week **6**
Diploma in IT	
Year 2 (2018/19) Semester 4	**3 hour**
Practical 5 : Core Data	

Core Data

1. Create an iOS 12 application with the following UI.   You need to use the UITableViewController.

2. Use Core Data to save the list of information to the Application Storage. When the application is launched, the data must be loaded back to the Table.
